

PA C-PACE Engineering Professional Self Certification Form

Pennsylvania C-PACE program requires a Property Owner to obtain an Energy Conservation Measure Survey (“ECM Survey”) performed by a Qualified Engineering Professional for Energy Efficiency and/or Water Conservation projects. The ECM Survey must establish an energy baseline or water usage baseline and the projected energy savings or water usage reductions to determine the viability of the qualified C-PACE Project and the projected energy or water savings.

Qualifications (Required)

All ECM Surveys for projects that include Energy Efficiency Improvements and/or Water Conservation Projects must be prepared and submitted by a Qualified Engineering Professional who holds at least one of the following certifications or licenses:

- Certified Building Energy Assessment Professional (BEAP) (offered by ASHRAE);
- Certified Energy Auditor (CEA) (offered by Association of Energy Engineers [AEE]);
- Certified Energy Manager (CEM) (offered by AEE);
- Certified High-Performance Building Design Professional (HBDP) (offered by ASHRAE);
- Certified Measurement and Verification Professional (CMVP) (offered by AEE and Efficiency Valuation Organization);
- Certified Passive House Consultant;
- Licensed Professional Engineer (P.E.);
- EMA’s Energy Management Professional (EMP);
- Investor Confidence Project (ICP) Quality Assurance Assessor;
- Investor Confidence Project (ICP) Project Developer;
- NABCEP Certified PV Design Professional.

The Qualified Engineering Professional can be employed by a participating contractor on the project or can be an independent firm retained by the applicant or the applicant representative.

As C-PACE program administrator, Sustainable Energy Fund (SEF) will post a list of firms capable of providing these services on the Pennsylvania C-PACE website. Please note that SEF does not verify, vet, endorse, or rank Qualified Engineering Professionals. It simply provides this list as a reference for Property Owners.

By filling out this form, Qualified Engineering Professionals are self-certifying their qualifications to perform the ECM Surveys required for C-PACE projects.

Qualified Engineering Professional Information (Required)

PA C-PACE may post this contact information on the PA C-PACE website. If you wish to provide separate public-facing contact information, please do so under other information.
